CONDENSER

“We Differentiate, not Compete”

Feel The Difference in Freeze

We are Manufacturers of Air cooled Condenser & Evaporator coils. Our Manufacturing Plant is situated at Kakkalur, Thiruvallur (dist) 30Kms from Chennai, Tamilnadu, India.

Manufacturing of Air cooled Condenser & Evaporator coils with special reference to Industrial Application as per your Drawing.

We can manufacture up to 43" long Coil with facility of gang bullet system and can manufacture longer coils with flexible Expander 144"

We Use Quality copper & Aluminum for taking care of Quality Parameters such as efficiency of Our Coil Systematic brazing of U bends & headers. To ensure Internal Coil Hygiene, the coils are internally cleaned with Solvent Flushing and subsequent blowing of Dry Nitrogen, to ensure cleanliness as per ASTM Standard B280. Coils leak testing at 28 bar Dry Nitrogen Pressure. Aesthetically elegant Coil with OIL FREE Fins for operation in dusty environment.

Machinery

1. 3/8" - 12 Row Draw Die with 1* Triangular Pitch Configuration
2. We can offer 8 Fins per inch to 8 - 15 Fins per inch because of Draw Die
3. Bullet Expansion - We have Gang Bullet Expander with max capacity of A) 43" - Fin to Fin B) 30 holes in one row C) Five rows
4. Internal Cleaning System for the Coil as per the Standard ASTM B280 Internal cleaning ensures to minimize the failure rates in the System coils are tested with 400 psi of Dry Nitrogen.
5. Hair Pin Bender upto 43"

Special features

1. Bright and annealed copper tube used.
2. Virgin 1100 Grade Aluminium used for manufacturing Quality Fins.
3. Coils have good bonding as they are expanded in Bullet System.
4. Special Emphasis is given on Internal Cleaning of Coils so that No Clogging occurs in the Operating system. To ensure this we use Internal Cleaning Mechanism in the coil.
